Small Wonders at Temple Judea

provides a quality preschool education in a warm, nurturing setting, for children ages two through five. A staff of loving, experienced teachers guide the children as they learn to get along with others and discover the world around them.

The children's activities are carefully balanced throughout the school day to provide opportunities for quiet learning as well as expressions of physical energy and creativity.

Social skills are emphasized and children learn to become part of the community that is their class, learn to respect each other's feelings, take turns and share.

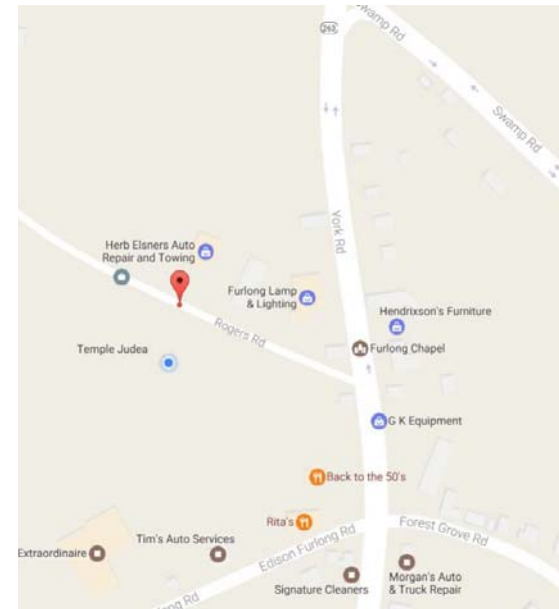

Parents and teachers work cooperatively to ensure that each child enjoys a successful school experience. We are a strong community, committed to the well being of children and families.

Experience the Wonders of Childhood with Us
